CALL MONEY EASIER

OUTSIDE TRADERS ARE NOT AT-TRACTED TO WALL STREET.

Volume of Business Small, but Undertone Said to Be Strong-Local Market Indications.

At New York yesterday money on call was easy at 21/2031/2 per cent.; last loan,

4; closed, 3. Prime mercantile paper, 51/261/2 per cent. Sterling exchange dull and easier, with actual business in bankers' bills at \$4.88%@ 4.88% for demand and \$4.87%@4.88 for sixty days; posted rates, \$4.881-04.89 and \$4.890 4.90; commercial bills, \$4.87.

Bar silver, 67%c; silver certificates, 67%@ 684c. At London bar silver closed at 30 15-16d

Total sales of stocks were 187,409 shares, including the following: American Tobacco, 6,300; Chicago Gas, 5,500; General Electric 5,500; Louisville & Nashville, 7,900; Missour Pacific, 9,900; Northern Pacific preferred, 3,-700; Reading, 4,600; Rock Island, 5,200; Tennessee Coal and Iron, 3,400; Southern Rail-

road preferred, 3,800. Although the volume of business in stocks yesterday was not large the undertone was strong throughout and the character of the dealings was improved by a further increase in dealings by commision houses. Conservative operators continue, however, to regret the lack of broadness and the relative inferior position of the regular railway list. In their judgment the concentration of speculation in this or that industrial renders the bona fide investor timid, although it is hoped that the heavy accumulation of money at this center may redirect the attention of ctual buyers to the securities market. Bugar for nearly one-third of the entire

dealings yesterday, recording 56,400 shares. The pool in this specialty continues to be active and its members predict 130 or higher for the stock. An element of danger in the situation is that every other man in Wall street is a bull on Sugar. The upward movement resulted in the covering of a considerable amount and many bear stop loss orders were reached. In the sugar trade predictions of further important advances in the price of the product are made. The raw grades were marked up 1/2 cent. The extreme advance in the stock was 21/2 per cent, bringing the price to 1257/2. The closing was at a fraction from the high level. ing was at a fraction from the high level. The trading in the general market embraced a number of the usual inactive shares. London was alternately a buyer and a seller of stocks in the New York market and also purchased our bonds to a moderate extent. Erie firsts preferred rose 2 per cent. and a block of the general Southern fives and Northern Pacific and lien mortgages was also taken. Buying of Atchison issues was likewise credited to Europe. The market moved irregularly and although there were several conspicuously weak spots, the general trend of prices was upward. Lead shares, common and pre-

weak spots, the general trend of prices was upward. Lead shares, common and preferred, were prominent and made substantial gains on reported favorable trade conditions. The buying was also attended by conjectures that at the regular monthly meeting of the directors held yesterday, a dividend on the common stock might be declared. As a matter of fact, only routine business was transacted and an official of the company informed a reporter that the question of a dividend was not discussed. The common sold up 1% and preferred 2%. The common sold up 1% and preferred 2½, closing at the top notch. The sterling exchange market displayed an easier tendency, but a temporary decline in the price of call money to 21/2 per cent. was not halled with unmixed satisfaction, the low figures serving to accentuate the duliness of general busiss. It is gratifying to note, however, that there is no pressure of any description of commercial paper on the market and choice mes that some time ago were not sold below 6 per cent. and over are now quoted at 51/2 per cent. and in exceptional cases at 5 per cent. In the great crop sections delay in seeding is more than offset by the abundant moisture in the soil. In railways Missouri Pacific was unusually active and rose 1% per cent., with a subsequent partial recession. The fluctuations in other leading shares were mainly fractional. The closing

was steady, with irregular fractional net changes in the active list. Bonds were active and strong on foreign purchases. Notable fractional gains occurred in the speculative issues, but in active bonds some important advances were recorded. The aggregate dealings were \$2,462,000.

Government bonds ruled strong on purchases of \$115,000. Unimportant changes were noted in State issues on sales of \$461,-

YOUNG TROUPE OF ENTERTAINERS.

Centennial ex. C, 4.67c; 14 yellow-California | highly entertaining minstrel show to the men at the station house yesterday afternoon. The little girls sang songs of the and sisters, and told a story that touched his hearers and enlisted the sympathies of Police Matron Buchanan, to whose care the children were consigned by the superintend-

> The lad said that until a short time ago he and his sisters, with their father and mother, had been members of a floating opera company, which played up and down the Ohio and Mississippi rivers. In its wanderings the company had gone as far south as Texas. His father was a trapeze performer and taught him to work with him. Mrs. Wilson is a singer and instructed her daughters in singing for the stage. They continued with the company until Danville, Ill., was reached, when the children's father fell ili and had to leave the opera company. Yesterday the boy and his sisters left Danville, determined to try and earn money to send to their mother. She is nursing the father, who is lying ill with the grip at a Danville hotel. They came to the station house to find shelter for the night. Joseph Stevens, custodian of the police station, took them to a restaurant and saw that they were given a good supper. When they returned, the boy grew restless and told matron Buchanan that e wanted to go out with his sisters and try to make some money by singing on the streets and in saloons. As there was no law ander which they could be detained, Superntendent Colbert decided to allow them to go if they chose, but warned them that if hey did so they must not come back. Later last night it was reported that the children were going about from saloon to saloon, singing and dancing and giving acrobatic exhibitions in the hopes of catching a

WHEAT WAS NARROW

SMALL TRADE, BUT THE MARKET WAS FIRM AND 1-4C HIGHER.

Other Markets Sympathized with the

Leader, with Exception of Pro-

visions, Which Declined.

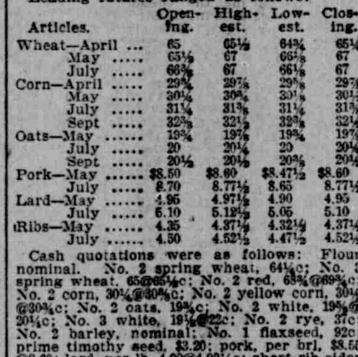

CHICAGO, April 16.-Wheat was weak and strong by turns to-day and closed firm at 65%c for May or %c over yesterday's close on frost reports from some of the wheatgrowing States. Corn, oats and provisions are all moderately influenced by wheat, the two former closing with a shade of improvement, the latter at a slight loss.

There was only a moderate speculative trade in wheat, the range for the session being %c. The start was easy on the failure of any cold or severe temperatures to materialize in the Northwest, then receipts in 4.10@4.15c that section were liberal and the Price Current's weekly crop summary was taken as a little bearish, all of which combined to weaken prices at the start. New York reported nothing doing there in the export line and was also something of an influence There was, however, very fair buying at the decline by professionals and some of the larger commission houses and prices soon advanced. Public cables came 4c higher and the flour output for the week made a fair showing at 311,365 barrels, against 223,-215 barrels for the same period in 1895. Frosts were again reported in California, killing at Fresno, and cut some figure. The starting of the fleet here also had some little influence, and then the out-inspection was fair. There was quite a little changing— selling May and buying July and vice versa -the premium for July widening at on There was a moderate speculative trade

in corn, the market at times ruling fairly active, the range being narrow at 1/6/4c. The feeling developed was fairly firm and the close showed 1/3c advance.

Oats were steadler with a fair trade. Part of it was in the way of changing from May to June and in covering shorts in both months. Prices had a 1/2 range and closed at the top with a gain of 1/201/4c, the latter being on September. There was considerable business transacted in the market for hog products and the feeling in a general way was easier with frequent fluctuations in prices within comparatively narrow ranges. Speculative offerings were quite free and the demand fairly active and credited to shorts. The receives of home ware feir and wrices lower ceipts of hogs were fair and prices lowerthe supply for the week exceeding the esti-

> ground west of the New York store to a Chicago syndicate, have begun to litigate the proceeds in the courts. Suit was brought yesterday in the Circuit Court by Moses T. Johnson, of Philadelphia, trustee for the heirs of Henry P. Johnson, who sold the Washington-street real estate, against Sarah Johnson, widow of the late Henry P. Johnson. The plaintiffs want their titles in the notes and proceeds from the sale quieted. The defendant was the second wife of Henry P. Johnson and is without children. Mrs. Johnson, it was understood, would receive one-third of the proceeds from the sale, this being the wife's share in her husband's estate. The plaintiffs now seek to have her share declared a life interest so that at her death her interest will revert to her husband's heirs. Mr. Johnson's attorneys contend that there was a tackt agreement between all the heirs that Mrs. Johnson should have her one-third of the proceeds of the sale. Mrs. Johnson lives near Boston

LILLIAN PERKINS SUIT. The Young Woman Who Objected to

a Pose in the Nude. The suit of Lillian Perkins against Theoore Marceau and George T. Bassett, photographers, for \$10,000 damages, was brought in the Circuit Court yesterday. Miss Perkins is the young woman whose picture, entitled "Autumn," was exhibited at Maennerchor

Hall during the convention of the Indiana photographers and artists last February. In addition to her demand for damages the plaintiff prays the court to restrain the defendants from further publishing or permitting a display of the picture "Autumn" while the suit is pending. On final hearing she asks that the injunction be made per-

The history of the picture was published in the Journal two weeks ago. As averred by Miss Perkins she went at the solicitation of the photographers to their studio, No. 40 North Illinois street, at 9 o'clock, on the right of Feb. 8, 1896, to sit for a negative was to represent her as a "country She was induced, she says, to posgirl." She was induced, she says, to pose as a draped figure representing "Spring" and was told that her features would be so modified and changed as to make recognition of her face impossible. She sat down, the says, decently clothed and draped and posed, as she supposed, in the character of "Spring." She charges that the defendants without her consent and knowledge, so manipulated her robe and developed the negative as to make a disgraceful exposure of her figure. It is asserted that the defendants did not change and modify her features and that they caused the shameful picture to be published and exhibited under the title of "Autumn." Miss Perkins avers that, at the time the picture was taken she was an inexperienced girl of sixteen years and was too immature to comprehend the nature and impropriety of such a picture. The publication of the picture, she asserts, has greatly injured her reputation and standing and has caused her great mental pain and anguish.

WANTS HER CHILD.

Mother Sues for Possession of Her Five-Months-Old Girl. Dora Clapton, colored, brought suit yesterday against Agnes Ruby, also colored, for the recovery of Edith Clapton, daughter of the plaintiff. The child is five months old. The complaint charges that the Ruby woman is unlawfully detaining the child, claiming that it was given to her by the mother. The plaintiff denies this. She says the defendant took the child over to her house one afternoon and was to return it in the evening. The promise was not kept and when the plaintiff demanded her property delivery was refused. > The Door Fell on Him. John Cates brought suit against the Louisville, New Albany & Chicago railroad yesterday to recover for personal injuries suffered Feb. 14, 1896, while employed on the defendant's new freight house in this city. The plaintiff says he was engaged in helping to hang a heavy door and with other, employes was holding the door in position, when a foreman named Marks called the others to another part of the building. The plaintiff was unable to hold the door against the strong wind that was blowing and it fell on him, crushing and bruising him. The plaintiff alleges that before the accident he was able to earn \$2.50 a day, but has since been unable to perform any kind of labor. He demands \$10,000.

A DISCRIMINATING TAX.

British Steamship Companies Levying 18 Cents a Ton on American Flour.

NEW YORK, April 16 .- Charles C. Bovey and John Crosby, of Minneapolis, representcaused her great mental pain and anguish. ing the National Millers' Association, are in this city. They say the flour importers of London are greatly exercised over what they hold to be a discrimination against American flour. Flour from America enters London docks and is subjected to a lading charge of 18 cents a ton. French flour and American wheat escape this charge. Parliament has enacted that no charge whatsoever shall be made on goods landing at these docks, but the steamship companies it is stated, issued to American millers a bill of lading containing a clause subjecting flour to the 18 cents charge per ton. In this way the miller contracts himself out of the laws of Parliament and must pay the tax. Furthermore the dock companies, it is stated, propose now to increase the tax on landing materially. With these facts in view, Messrs. Bovey and Crosby have been in Washington, where they have represented to a subcommittee of the House ways and means committee that the American flour product is subjected to charges in contro-vention of English law, and what they have urged may be abated through retaliatory legislation here.

Will of John Pope. RICHMOND, Va., April 16.—The will of the late John Pope, the vice president of the American Tobacco Company, leaves his brother, George Pope, of Brooklyn, and his sisters each \$150,000. The brother is then made residuary legatee, which gives him an additional million dollars or more. The sisters each receive five hundred shares preferred stock (\$50,000) of American Tob Company, one thousand shares of the mon stock of the same company, and \$25,000 in other securities. The rest of the estate, which goes to George Pope, consists of an interest in the Jefferson Hotel here, suburban and other real estate, and stock in the American Tobacco Company and other corporations. It is expected that George Pope will in a year or so come here to live and look after his newly acquired interests.
